NEWS—FOR IMMEDIATE RELEASE

Heat Exchange Institute Releases 7th Edition of Standards for Closed Feedwater Heaters

Heat Exchange Institute (HEI) released the 7th edition of *Standards for Closed Feedwater Heaters*. The standards may be purchased for \$295 US by contact the HEI office via telephone at 216-241-7333, via fax at 216-241-0105, via email at hei@heatexchange.org, or by visiting the HEI website at www.heatexchange.org.

The 7th edition of *Standards for Closed Feedwater Heaters* has been extensively revised since publication of the 6th edition. The newly revised 7th edition contains practical information on nomenclature, dimensions, testing, and performance. Use of the standard will ensure a minimum of misunderstanding between Manufacturer and Purchaser and will assist in the proper selection of equipment best suited to the requirements of the application. The publication of the 7th edition of the *Standards for Closed Feedwater Heaters* represents another step in the Heat Exchange Institute's continuing program to provide standards, which reflect the latest technological advancements in the field of heat exchange equipment.

The Heat Exchange Institute (HEI) is a non-profit trade association committed to the technical advancement, promotion and understanding of utility and industrial-scale heat exchange vacuum apparatus. The Institute concentrates its efforts on the manufacturing and engineering aspects of steam surface condensers, closed feedwater heaters, power plant heat exchangers, liquid ring vacuum pumps, steam jet ejectors, and deaerators.

Since its founding over 60 years ago, the Institute has earned international recognition as the leading authority on the technologies for heat exchange and vacuum apparatus. Institute standards are used throughout the world for the design, manufacture, and operation of heat exchange and vacuum equipment.

For further information about the HEI or the Closed Feedwater Heater Standard, contact Craig H. Addington, 1300 Sumner Ave., Cleveland, OH 44115: email; caddington@taol.com; fax: 216-241-0105, or visit the HEI Website: www.heatexchange.org.
